The August meeting of the Brazos Genealogical Association will be on the regular meeting night--Third Monday (August 18) 7:00 - 9:00 pm at the Bryan Library. We will be hearing from some summer research experiences of members who have been out and around Let's hope they can give us some inside information that may save us a trip, or help us to have a better one! Come share with us.

Bryan Library

Monday, August 18, 1980

7:00 - 9:00 pm

Monday, September 15, 1980

Bryan Library

The September meeting of the Association--scheduled for Monday, September 15--will be another time of sharing summer and/or researching experiences.

In addition, there has been a request for the pamphlet that Ken BROWN gave us on Organization and Numbering. Since an explanation needs to be made about the pamphlet, Mary COOPER will be at the library at 6:15 that night and go over the methods, show some examples and answer questions. If you want to review or find out about this method, plan to come early for that work session. The pamphlet will be available, too (65¢).

NOTICE: Your Editor must justify the delay in mailing the Advertiser--and the only justification is that she is a grandmother! The vacation time was coming to an end and the grandchildren 'trips' had to be made. We hope that it 'won't ever happen again'! Thank you for understanding.

## MOSS CEMETERY
Robertson County

The Moss Cemetery is an old family cemetery located on private land in Robertson County. To find the cemetery, drive north from Bryan on Highway 6 for approximately 13 miles. Turn right on FM 2549 (there is a sign that says 'Camp Arrowmoon'). Drive 1.5 miles and turn right on Rabbit Lane (no sign); .4 miles to a cattle guard on the right with a chain across. The sign says Kingsbury, but the chain is locked and there is another sign that says Private Property. One mile down the ranch road there is a cattleguard and aluminum gate. The cemetery is about .4 mile down the lane. We secured the key to the gate from Mr. C.J. ALLEN who has adjoining property. Permission should be secured before entering the Ranch.

The cemetery is on a hill in a grove of hickory trees with a lovely view of other small tree-covered hills. Near Spring Creek, there is about an acre that is fenced off for protection of the graves that are there; however, one section of the fence has fallen and cows have been in the area.

As in many small family cemeteries there are a number of Field stones which apparently mark graves, and there are five uninscribed concrete slabs that may have been identified at one time. There are also three funeral home markers, but the writing has completely faded. One of these is under a large tree in the far corner of the fenced area. There are only two surnames identified in the cemetery --MOSS and LUTTS. The largest marker is about three feet tall and has inscriptions on two sides of the four sided base:

W W MOSS
born
Oct 24, 1807
died 1845

"Our Father"
S R MOSS
born May 8, 1804
died Nov 20, 1889

Footstone: W W M

Another large stone is for husband and wife:

MOSS

Father
Samuel R.
Apr 9, 1853
Dec 28, 1931

Mother
Nettie
Apr 7, 1858
Aug 10, 1953

One stone has different inscriptions on each side:

Susan B.
wife of
T A MOSS
born Aug 16, 1855
died July 29,1889

Sidney
born Nov 20, 1885
died Apr 15, 1889

Minnie
born May 31, 1881
died July 21,1885

MOSS Cemetery (Cont'd)

Two other MOSS stones:

Howell P. MOSS
1851-1941

Annie dau of
L E & S R MOSS
born
Sept 27, 1867
died
June 9, 1868

The stones with LUTTS surnames:

Lillie M.
dau of
? F & R E LUTTS
born
Aug 13 & died
Aug 27, 1879

Infant daughter
A F & R E LUTTS
born
June 15 & died
June 15, 1880

This listing was done August 1, 1980, by Ralph and Naomi McCORMICK and Mary COOPER. The time invested in this excursion was no more than two to two and one half hours. They challenge other members to spot and list other small family cemeteries that need to be recorded before more deterioration has occurred. Going in teams seems to be the most efficient as one can read and the other record and there is a check on each other as to accuracy. Equipment needed: cards (we used 3x5, recording one stone to a card); pencil and paper for rubbings if this is needed (news print or butcher paper will do); chalk is best for bringing out shallow carvings; a wire brush or kitchen scrubber will get the moss off. A thermos of water, insect spray and big hat will also help.

Will one or two members volunteer to coordinate these listings so we don't have two different teams going to the same place??

++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++

HENRY FAMILY CEMETERY

This cemetery is listed in E. Broaddus SMITH's book of Brazos County Cemeteries; however, Mrs. SIMPSON in the county clerk's office, has given to Nan ROSS, reference librarian, these listings which she says should be added to the SMITH book list.

Father: Jasper M. GILLMORE
b 2 Sept 1868
d 27 May 1917

Mother: Vashti McMillian GILLMORE
b 17 Feb 1873
d 11 Mar 1961

Infant Son: 1894-1894

Infant Daughter: 1894-1894

Camilie GILLMORE: b 4 July 1897 d 4 Sept 1897

Son: Jessie W. GILLMORE b 4 Oct 1906 d 10 Aug 1961

Inez Jane GILLMORE: b 5 May 1913 d 17 Dec 1917

Infant Son: 1913-1913

Napolian GILLMORE: b 28 May 1910 d 28 Nov 1910

# WHAT'S NEW? BRYAN LIBRARY

The latest books to be added to the Genealogy shelf of our Bryan Library are listed below. Nan ROSS is doing a good job! Next time you are there, tell her so; also tell her what areas you are interested in. She says there are other books ordered which she is anxiously watching for--one is a passenger list/ship list that I've heard members wishing for.

GNL 929 D.A.R. DAR Patriot Index, Volume 2. Contains all patriot ancestors established from June 1966 to June 1979. Includes Supplements 1-3. Section 2 contains additions and corrections to Volume 1. Section 3 is a list of cross-references in Volume 1.

GNL 975 KIRKHAM. An Index to Some of the Family Records of the Southern States. A partial index to part of the D.A.R. Library. References are to appropriate microfilm rolls. Be sure and read the introduction. Does not include "Grandparent Forms".

GNL 975.8 TAYLOR Foundation. Censuses for Georgia Counties: Taliaferro 1827, Lumpkin 1838, Chatham 1845. Abstracts of state and school census with maps of the counties and surrounding areas. Comprehensive index.

GNL 976.1 Ancestors. Volume 1. East Texas Genealogical Society members submit their ancestor charts as a part of membership! Required! Great.

GNL 976.4 BURKE. Nacogdoches County Cemetery Records. Volumes 2 & 3, previously out of print, complete our set to date.

GNL 976.4 CUMMINGS. Population Schedule of the Presidio County, Texas, 9th Federal Census of 1870. The most complete, detailed transcription of any census listing that I've ever seen!

GNL 976.4 Texas Family Land Heritage Registry. Volume 5. 1979. Latest edition of a valuable resource in Texas genealogy.

---

Bess GATLIN has shared another book with us. She pokes around and finds some very interesting and unusual references for our library visits. This time she is suggesting Virginia: The New Dominion by B.P.L. DABNEY (975.5) She says pages 80-81 have portraits of "the Adam and Eve of Virginia"--William RANDOLPH and Mary ISHAM--who were married in the 1670's and had these direct descendants: Thomas JEFFERSON, John MARSHALL, Light Horse Harry LEE, Robert E. LEE, Peyton RANDOLPH, Edmund RANDOLPH and John RANDOLPH of Roanoke.

An account of the Hugenots who fled from France and settled at Manakin Town VA in 1683 is given on page 73. Some of the families listed: MICHAUX, BATTLE, JORDAN, MONCURE, MUNFORD, LATANE', MARYE, TALIOFERRO, FLOURNOY, NORMAN, BARROW, GEROW, LACY, LEWIS, DASHIELL, LARUS and DUVALL. Later, FONTAINE and MAURY.

Thanks, Bess, keep up the reading--and reporting!

## KNOW WHERE? RESEARCH SOURCES

Recently your editor visited the Fort Worth Public Library. The library did live up to the information that it had extensive genealogical resources. It is presently in a lovely new building in the downtown area--part of the Tandy Center. Anyone in the Fort Worth area will find a visit to that library an interesting and profitable one.

One of the handouts in the library was an alphabetical list of the states and their catalog number. This was very helpful but even more helpful and interesting when they were put in numerical order as they are found on the shelves. This is generally how you will find state related information in libraries using the Dewey numbering system. Here is the numerical listing.

| | | |
|---|---|---|
| 974.1 Maine | 975.1 Delaware | 976.1 Alabama |
| 974.2 New Hampshire | 975.2 Maryland | 976.2 Mississippi |
| 974.3 Vermont | 975.3 District of Columbia | 976.3 Louisiana |
| 974.4 Massachusetts | | 976.4 Texas |
| 974.5 Rhode Island | 975.4 West Virginia | 976.6 Oklahoma |
| 974.6 Connecticut | 975.5 Virginia | 976.7 Arkansas |
| 974.7 New York | 975.6 North Carolina | 976.8 Tennessee |
| 974.8 Pennsylvania | 975.7 South Carolina | 976.9 Kentucky |
| 974.9 New Jersey | 975.8 Georgia | |
| | 975.9 Florida | |
| 977.1 Ohio | 978.1 Kansas | 979.1 Arizona |
| 977.2 Indiana | 978.2 Nebraska | 978.2 Utah |
| 977.3 Illinois | 978.3 South Dakota | 979.3 Nevada |
| 977.4 Michigan | 978.4 North Dakota | 979.4 California |
| 977.5 Wisconsin | 978.6 Montana | 979.5 Oregon |
| 977.6 Minnesota | 978.7 Wyoming | 979.6 Idaho |
| 977.7 Iowa | 978.8 Colorado | 979.7 Washington |
| 977.8 Missouri | 978.9 New Mexico | 979.8 Alaska |

996.9 Hawaii

Note the geographical grouping of the states--what should also help in locating the state you want without having to wander and look 'hit-or-miss' as this editor has been known to do!

==========

The February 1980 publication of the Iuka, Mississippi, Surname Society has this very interesting bit of wisdom:

"I think that I shall never see
The finish of a family tree.
It forever seems to grow
From roots that started very slow."

---

The editor got this from a lovely Louisiana lady:

TyPisTs do NoT drink MoRe Tha n other peopLe

One of the Genealogical Newsletters that exchanges with the Advertiser is The Herald, an excellent publication from the Montgomery County Genealogical Society, Conroe, Texas. (The Montgomery County Library has an excellent reputation also.) Vol. 3, #2, Summer 1980 is now in the Bryan Library, and well worth looking into. One item submitted by M. HYATT is quoted from the 1 March 1980 issue of "Tree Talk", published by the Cherokee County Genealogical Society of Jacksonville, Texas. This editor could not resist sharing it with the Advertiser readers, too.

GENEALOGY POX

WARNING! GENEALOGY POX: very contagious to adults. Symptoms: continual complaint as to need for names, dates and places. Patient has a blank expression, sometimes deaf to spouse and children.

Has not taste for work of any kind, except feverishly looking through records at libraries and courthouses. Has compulsion to write letters. Swears at mailman when he doesn't leave mail. Frequents strange places such as cemeteries, ruins and remote desolate country areas. Makes secret night calls, hides phone bills from spouse. Mumbles to self. Has strange faraway look in eyes.

NO KNOWN CURE!!

TREATMENT: Medication is useless. Disease is not fatal, but gets progressively worse. Patient should attend genealogy workshops, subscribe to genealogical magazines and be given a quiet corner in the house where he can be alone.

REMARKS: The disease is unusual in that the sicker the patient gets, the more he enjoys it!

=== === === === === === === === === ===

Other organizations with whom the Advertiser exchanges or sends our publication for their library:

East Texas Genealogical Society, Tyler

Montgomery County Genealogical Society, Conroe

Nacogdoches Genealogical Society

Texas State Library, Austin

Waco-McLennan County Library

Louisiana State Archives, Baton Rouge

Leon County Genealogical Society.

The Leon County Genealogical Society is working on an up-date of the published book of Cemeteries in Leon County. They are asking for a listing of all the small family cemeteries, or for known names that should be listed in the book, but were omitted, or perhaps were unmarked at the time of the listing. Check their newsletter for more information.

(Continued in the next issue)

## WHO'S NEW? — NEW MEMBERS

We welcome another couple to our growing membership. They have some very interesting surnames, and promise to have more for the next edition!

Mr. and Mrs. J.S. JERNIGAN (Steve and Mary YOUNGER) 822-3564
3210 Link Street, Bryan TX 77801

| | | |
|---|---|---|
| COFFEY | STUART | YOUNGER |
| JERNIGAN | SLAUGHTER | |

As a part of the next issue we will give you a new membership list with their surnames. If you've added new ones since we printed yours, please drop your editor a note, 740 Garden Acres, Bryan TX 77801, or call at 846-8278. These lists have been helpful in the past and will be again!

********** ********** ********** ******

AUSTIN G.S.WORKSHOP

The Austin Genealogical Society Annual Workshop will be held Saturday, August 23, 1980, from 9:00 a.m. to 4:00 p.m. at the Quality Inn-South in Austin.

Mr. Bill LINDER, the Director of Central Reference and Records Services at the National Archives in Washington, D.C. will be the principle speaker. He is an excellent speaker and true expert in genealogy. He is a native Texan and a graduate of the University of Texas.

The Workshop is $15.50 for registration at the door. Registration includes a Buffet Luncheon.

## KNOW WHO? — PEDIGREE CHARTS

Marian GRAHAM has given us a pedigree chart that is slightly different from those printed in recent issues, but is a very interesting one. Other members will enjoy seeing one that 'goes the other way'. In other words, instead of starting with the youngest person on the left hand side and showing that person's ancestors, Marian and her cousin M.E. WADE have placed their eighteenth century ancestor --and wife--in that left hand space and documented their descendants. Very interesting, Marian.

On the following pages you will see Marian's pedigree chart and extensions. These are good examples of two ways to present your research--depending on the type of research you have done!

511. Mary TAPPAN b b 1668 MA

As if these were not impressive enough, Marian has really only begun with her list!! She stopped numbering at this point, but listed another one hundred and fourteen names ending with John ALDEN and Priscilla MULLINS! and she reports that she can go further than that with those overseas! This may be a set of pedigree charts that we will want to look at in the file at the Bryan Library. Marian, we really admire the work that you have done.

## USING THE SOUNDEX

The index cards reproduced in the microfilm copy of the 1880 census index are arranged according to the Soundex filing system. This system, alphabetic for the first letter of surname and numeric thereunder, compensates for variations in spelling.

The Soundex includes only those households which had children under ten, but lists persons in those households with surnames other than that of the head separately.

Each coded number may represent one to ten or more surnames. Entries within each number are arranged alphabetically according to the given name of the head of household. Thus ADRIAN APPLEMAN would precede BUTLER ABCOCK, even though both names might code A420.

To code a name . . . .

1. Write it out. The first letter of a surname is not coded. It prefixes the code. Write the first letter and cross it out of the name.
2. Cross out all the letters which are not coded.
3. Assign the proper code number for each letter left in the name. Double letters are coded only once.
4. The first three digits are the code number for the name. Add them to the prefix letter. If fewer than three letters in the name are coded, add 0's to the code number or numbers to make a three digit number.
5. Find the box in the Soundex drawer which lists the numbers which include yours. A typical roll of Soundex might include H450-H660.

Soundex Code

| | |
|---|---|
| 1 | b,p,f,v |
| 2 | c,s,k,g,j,q,x,z |
| 3 | d,t |
| 4 | l |
| 5 | m,n |
| 6 | r |

The letters a, e, i, o, u, y, w and h are not coded.

## SOME CALENDAR HISTORY

Have you wondered about those dates that are written 1684/5? This is due to the changes made in our calendar in 1751 and is found only in reference to January through March 25. This article (which was gleaned from Encyclopedia Britannica, 1970 Edition, Volume 4 by Ken BROWN) may help you to better understand the early calendars and references thereto. We thank Ken for sharing this with us.

This information is concerning the Western Calendar and presents the major facts about the three principle calendars that we might encounter in our research.

1. Roman Republican Calendar

   - o Contained 12 mos. (Each month roughly = 1 lunation)
   - o 355 Days ($10\frac{1}{2}$ days less than the solar year)
   - o Used from ca 700 BC to Julian Calendar

2. Julian Calendar

   - o By 46 BC calendar was 3 mos. off the astronomical equinox
   - o Julius Caesar added 67 days between November and December in 46 BC
   - o Adopted a calendar 1 Jan 46 BC based on a solar period of $365\frac{1}{4}$ (365.25) with each 4th year having 366 days.
   - o In 44 BC the month Quintilis was changed to July in honor of Julius Caesar.

3. Gregorian Calendar

   - o By 730 AD calendar was off 3 days.
   - o By 1200's was off just over 7 days.
   - o In 16th Century with support of the states of the Holy Roman Empire, Pope Gregory XIII undertook to have revisions made.
   - o Christopher Clavius first published the revision in 1603
   - o Lilius tackled the problem of changing or adjusting the lunar cycle (28 days)
   - o Gregorian calendar still uses the 365 day year with leap year having 366 days. Century years are not leap years unless divisable by 400. Later a slight adjustment was made to make the years 4000, 8000, etc. common years.
   - o Adoption of the Gregorian calendar varied from country to country. Was adopted in:
     - 1582 by Rome, various Italian States, Portugal, Spain, France
     - 1583 by Roman Catholic states of Germany.
     - 1700 by the Protestant States of Germany, Denmark
     - 1751 by Great Britain - By that time the Julian calendar was 11 days too long. The day following 2 Sept-1752 was termed 14 Sept 1752.
     - 1753 by Sweeden
     - 1917 by Russia (with the advent of Soviet government)

At the same time the calendar was adjusted, the date of the commencement of the new year was also changed (Great Britain). Hitherto the year had begun on 25 March, but by the act of 1751 was changed to 1 January - an enactment which had been carried out in Scotland as early as 1600.

==========

HOW YOU CAN TELL WHEN IT'S GOING TO BE A ROTTEN DAY

Your birthday cake collapses from the weight of the candles.
You turn on the news and they're showing emergency routes out of the city.
The bird singing outside your window is a buzzard.

Author Unknown ... But Troubled!

As residents of Brazos County, we are fortunate to have the resources of Texas A & M University so close at hand; although we have noted in the past that finding genalogical sources is very difficult. Recently, a paper called Genealogical Research at A&M was made available at the reference section of the library. Written by Bill PAGE who is Library Assistant in the Microtext Section of the library, this paper is a great blueprint for finding the material that is really there. We are told that he revises this listing from time to time, and the Advertiser has asked for permission to use portions of it for the benefit of local members. This will become a regular section of each edition. We will also try to tell you where in the library to find these references. We really appreciate Mr. PAGE's generosity in sharing his research with the Advertiser.

----- ----- ----- ----- ----- -----

## GENEALOGICAL RESEARCH AT A&M

by Bill PAGE

For most purposes genealogical research can be viewed as either a specialized form of historical or biographical research. Any tool which might be of use for either of these types of research may also be of use in genealogy.

A&M in general does not collect genealogical material as such; however, the Library does own some material which is of use to the genealogist. Unless the patron is an experienced researcher the first thing he should do is consult some of the handbooks we have in Reference in the CS classification. A competant genealogist will eventually have to develop library skills equal to those of a graduate student in history.

### CALL NUMBERS

Broad call number areas are as follow:

1. CS -- books about how to do genealogical research and works on individual families; the general tendency now seems to be to classify works under other call numbers when possible.
2. E -- American history (including wars) and ethnic groups
3. F --state and local history (more material than in the CS group

While these call numbers give a very general idea of areas to browse, the best method of locating material is checking the card catalog.

### THE CARD CATALOG

1. Works on genealogy may be cataloged by geographic region as follows:
   a. country (United States -- genealogy)
   b. region (New England -- genealogy)
   c. state (Massachusetts -- genealogy)

Genealogical Research at A&M (Continued)

d. county (Suffolk County, Mass. -- genealogy)
e. city (Boston, Mass. -- genealogy)

In addition to the subheading "genealogy" the subdivision "history -- sources" is also very useful.

2. To see if the Library has a book about a particular family, use the family name as a subject heading.

3. The Library owns very few census records. Essentially, the records for Texas (1850-1880,1900) and selected other states. Also, all of the 1790 census records are available. These records are in Microtext. (Second floor) The census records in Microtext are not represented in the public catalog. There are also census records for a few scattered years and areas in paper copy. To locate these check under the name of the county (or state) and using "census" as a subheading.

4. A number of subject headings are used for registers of births, deaths, marriages, etc. These include:

a. registers of births, etc.
b. probate records
c. marriage licenses
d. wills

Geographical areas are used as subheadings for the above. The Archives Division of the Library also has county records for local counties and can borrow records for all counties in Texas. These county records include marriage records, deeds, probate records, etc.

5. The Library owns relatively few emigration records. Some will be listed under broad headings (United States -- genealogy; others will be listed as registers. Another way some will be listed is under the name of the appropriate nationality (British in America--Lists, Germans in Texas--Directories).

6. While the Library does own a few military rosters as federal documents, in general these are very difficult to locate. Most of the Library's holdings of use to the genealogist are in the main collection. Subject headings used include "U.S.--army--registers" and "bounties, military--(geog.area). Other approaches may be useful. For example, both of the following would be productive in specific circumstances: "Virginia--history, revolution--sources" and "United States--history--Civil War--Regimental Histories--(name of specific unit).

Obviously, this is just an example of the search strategies. Additional subject headings should be sought as necessary using the Library of Congress subject headings list.

INDEXES AND BIBLIOGRAPHIES

American Genealogical-Biographical Index. Set in progress. Indexes genealogical material relating to United States in family histories, local histories, and other works. While not comprehensive, this is often a useful place to start.

Z / 5313 / US / A5.5 Regular Stacks. (Third Floor)

Genealogical Research at A&M (Continued)

C.R.I.S. Journals in History 1838-1974, Vol. VI. U.S. History. Biography and Genealogy. Useful index for finding biographical and/or genealogical material in historical ournals. WARNING: In using this I have found that it does not index these journals completely.
REF Z / 6205 / C 18

FILBY, P. William. American & British Genealogies & Heraldry. Extremely useful bibliography of works dealing with genealogy by subject and geographical areas. Does not include works dealing with specific families. Includes references to many federal documents which the Library owns.
REF Z / 5311 / F 55 / 1975

Genealogical Periodical Annual Index. Indexes genealogical and historical magazines. Limited usefulness for most patrons since the Library owns so few of the titles indexed. May prove useful if patron has access to Interlibrary Loan.
CS / 42 / C 467 (Reference)

Genealogies in the Library of Congress: A Bibliography. Somewhat useful, especially if patron has access to Interlibrary Loan. Also, identifies some items which are reprints of journals which the Library owns.
REF Z / 5319 / U5.3

Local Histories in the Library of Congress. Local Histories often contain a wealth of genealogical material. Useful aid for identifying what has been published about a particular area.
Z / 1250 / U59 / 1975 (Regular Stacks) (Third Floor)

Writings on American History. Indexes a substantial number of books and journals in history. Early volumes cite significant amount of genealogical material; cumulative forty year index makes it especially useful.
Gov Doc SI 4.1 / (Second Floor)

CROZIER, William Armstrong, ed. A Key to Southern Pedigrees. CS / 61 / C 7 / 1953 Regular Stacks (Reference)

Additional Subject Headings to Use

1. Registers of births, deaths, etc.
   a. Cemeteries
   b. Epitaphs
   c. Obituaries
   Geographical areas are used as subheadings for the above
2. Censuses, etc.
   "Visitations, heraldic" (with geographic subdivisions) are used to locate what few copies of visitations the Library owns.
3. Land records
   a. Abstracts of Title
   b. Deeds c. Land grants d. Land titles
   e. Real Property-(geographical subdivision)-Maps

Geographical areas are used as subheadings for the first four of above.
